MEMORANDUM TO:

Central Intelligence Agency

NSC review completed

With reference to your memorandum to the Director of 22 September enclosing a copy of a report from the Military Attache of Finland and Sweden, the following information is in answer to the questions which you asked:

- 1. Dr. Allen did not report to the "Senate Foreign Committee" as alleged in the quoted article. He states that the report is a complete fabrication and that he has had no contact, officially or unofficially, with the Senate Foreign Relations Committee.
- 2. FSB has received no inquiries with regard to the quoted article or to any other Swedish press reports concerning this question.
- 3. We have no recommendation for action in that our concern would normally be of a strategic nature and, since the publication of the report, we have not had any indication which would lead us to believe that this is a matter of strategic significance. Presumably, timely, on the spot operational reaction was probably taken by your organization at the time of your report, 5 August 1952.
